Area Of Interest

- Building responsive and user-friendly front-end interfaces
- Designing and integrating RESTful APIs for web applications.

Work Experience

Worked as a Frontend and Backend Developer at Pranion Technology Ventures Pvt. Ltd, where I completed 1.3 years of experience.

Skill Set

- Experience with AngularJS for dynamic front-end development
- Proficient in JavaScript and TypeScript
- Hands-on with Tailwind CSS for responsive UI design
- Proficient in PHP and the Laravel Framework
- Able to write effective queries using PostgreSQL
- Good problem-solving and debugging abilities
- Currently learning React for building modern and interactive front-end applications.

Projects

Teadmin – Fleet Management System

- A comprehensive fleet and logistics management platform involving multiple roles such as Admin, Shipper, Supplier, and Transporter.
- Worked on modules including Trip Management, Load Assignment, Invoicing, POD Upload, Document Handling, Tracking, Bidding, and Negotiation.

GCM ISIT – Trust Fund Application Management System

- A trust fund application portal designed for foreign-based staff and applicants to manage fund requests, approvals, and status tracking.
- Developed and maintained front-end modules using AngularJS and TypeScript, handling multi-step forms, applicant data, and role-based dashboards.

Extra-Curricular Activities

- Took part in local marathon running events.
- Participated in other sports events (cricket, chess).

Hobbies

- Early Morning running.
- Knowing the economic news.
- Eating good foods.
